

## Estonian innovation policy: challenges and dilemmas

**Tea Danilov**Head of the Foresight Centre

## Personal background

#### Ministry of Economy

- Head of Technology and Innovation Division
- Head of Economic Development Department
- Head of Internal Market Department

#### Enterprise Estonia (EAS)

 Director of Entrepreneurship and Export Centre

#### Foresight Centre

Head of the Foresight Centre since January this year

#### **Tea Danilov**

## Outline

- The evolution of the innovation policy in Estonia
- Selected results
- Dilemmas encountered
- Challenges ahead

## Changing mainstreams & Estonian responses

#### Market failure concept

- RDI funding
- State venture capital
- Innovation vouchers
- Loan guarantees

## Value-chain approach, critical mass through collaboration

- Competence Centers
- Clusters
- National R&D programmes
- Start-up ecosystem

#### Demand-led policy

- Building of charging system for electric cars
- Membership in European Space Agency
- Public procurement of innovation

#### "No hassle" economy

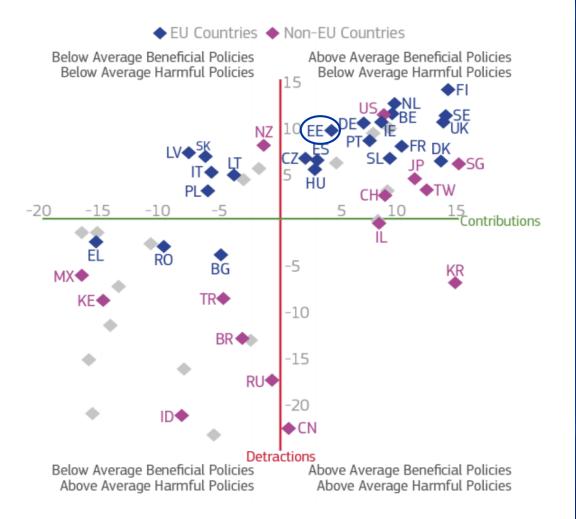

- Zero bureaucracy, "once only" principle
- eGovernment as catalyst, eResidency

#### Digitalisation of industry

 Industrial Policy green paper

This report assesses 56 countries on 27 factors reflecting the extent to which their economic and trade policies contribute to and detract from innovation globally.

## Contributors and Detractors: Ranking Countries' Impact on Global Innovation

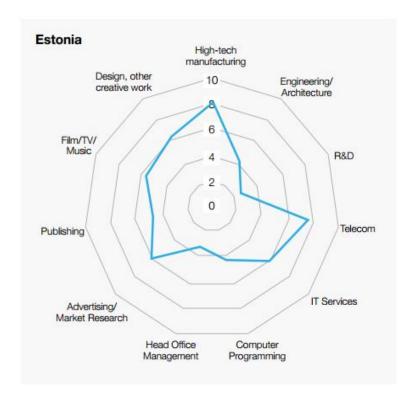

Information Technology & Innovation Foundation (ITIF) 2016

## The Geography of Europe's Brain Business Jobs

European Centre for Policy Reform and Entrepreneurship, 2017

Country Ranking		All brain business sectors, jobs per 1000 working age population	
1	Sweden	87.1	
2	Denmark	79.1	
3	Nethrlands	77.0	
4	UK	76.1	
5	Luxemburd	70.1	
6	Germany	65.8	
7	Norway	65.4	
8	Finland	59.8	
9	Austria	59.7	
10	Estonia	55.1	
11	Slovenia	54.4	
12	Belgium	52.7	
13	France	52.5	
14	Czech Republic	51.4	
15	Hungary	50.6	

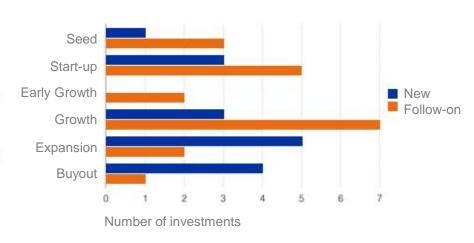

## Venture capital investments in Estonia

Source: Estonian Private Equity and Venture Capital Assocation

#### €74m invested (+385%)

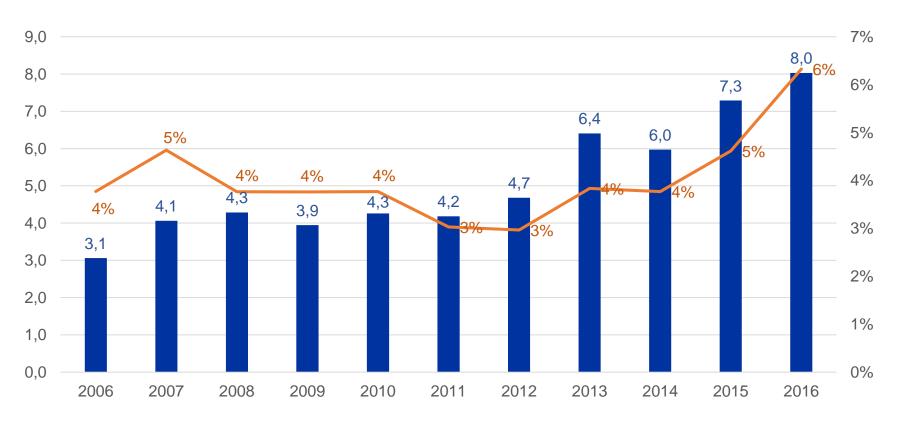

# €m 80 €49m to Estonian companies 40 20 Other countries (€m) Estonia (€m)

#### 2016 investments by stage

### Enterprise-academia cooperation

Expenditures of the universities that are financed by companies (mio EUR)

-Share of funds provided by companies in the total funding of the universities (%, r.s)

## Number of companies with R&D expenditures

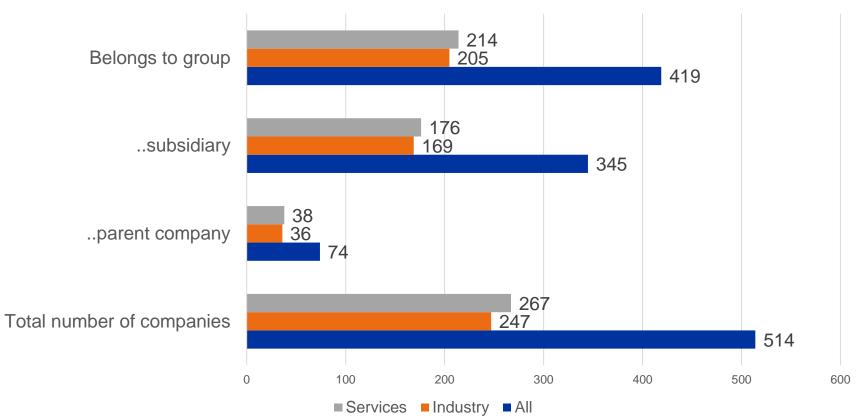

Source: Statistical Office Estonia

Year	Number of companies		
2004	100% of RD expenditures	90% of RD expenditures	75% of RD expenditures
2005	198	75	37
2006	185	59	25
2007	241	75	34
2008	240	77	34
2009	303	108	51
2010	287	104	48
2011	277	95	43
2012	258	71	27
2013	232	68	28
2014	226	81	38
2015	225	68	33
2016	257	71	33

## Companies with more than 100 employees belonging to corporate groups, as of 2011

## Obstacles to innovation in Estonian companies

Kaarna, K., Ojamäe, K., Welch, E., Fisher, B., Lember, K. "Eesti ettevõtete uuendusmeelsuse toetamise võimalused" 2015

- Identifying and testing market signals
- Design and development competencies
- Marketing and distribution
- Feedback from customers
- Upscaling

Down-stream, where the challenge is scaling, we need to allow expenses in such taboo fields as marketing, which has traditionally been viewed as too far from the lab bench. /.../ Extension schemes to spread new-to-region innovations deserve a lot more emphasis.

Mandelin, Ringrose 2016 "Opportunity now: Europe's mission to innovate"

# The dilemma of constant policy innovation vs consistent high-quality execution

While Estonian innovation policy is one of the most developed amongst the New EU Member States and is well structured and advanced in terms of the use of different instruments, the capacities of the RTDI policy system have to be increased.

OMC Peer Review Report for Estonia, 2007

Application for the development plan grant

## IMPLEMENTATION OF THE DEVELOPMENT PLAN TOGETHER WITH THE EAS CLIENT MANAGER

PREPARING FOR THE DEVELOPMENT PLAN

Up to 6 months

THE DEVELOPMENT PLAN

ASSESMENT OF ENTERPRISE'S CURRENT STATUS AND AMBITION

1-2 weeks

**DIAGNOSTICS** 

product/service, competences, finances etc.

**MENTOR** 

TRAINING OPPORTUNITIES:

strategy, business model, product development etc. EAS SERVICES EAS GRANT

KIK, KREDEX, ARCHIMEDES

**OTHER** 

POSSIBLE COMPONENTS
OF THE DEVELOPMENT
PLAN

MAPPING

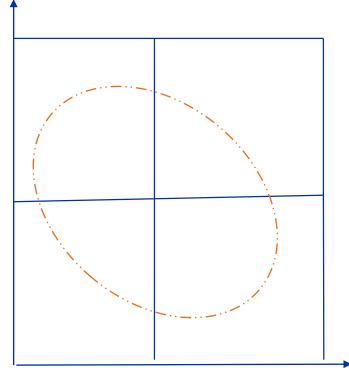

Up to 3 years

## **EAS** annually

- 600 companies in voucher programme
- 400 companies in export services
- 200 companies in clusters
- 100 companies in competence centres
- 100 companies in development programme
- 50 companies in European Space Agency & Horizon 2020 programmes

Value added per employee

Volume (turnover size, number of employees)

Ca 1500 companies in total

## Challenges ahead

- It takes two to tango: motivation of universities & demand from companies
- Extension & dissemination, new-to-firm innovation
- Embracing both ends of the "smile curve"
- One-stop-shops, "low overhead" ways of support
- Stronger clusters & ecosystems

## Thank You!
